The authors regret that the structure of compound **15**, which appears on page 10014, is incorrect. The correct structure and name is shown below. The compound name in Section 5.5.3 (page 10028) should read ‘14-Ethoxycacalol’.

This is a new compound. The structure determination is described correctly both in text and in Fig. 4.

The authors would like to apologise for any inconvenience caused.
